SUMMARY: I am a web developer, but I have also been an Aquarist and an EMT. Each experience along my career path has been about growth and change. With animals, exhibits, medicine and people, those alterations were … As a web developer

Experience

General Assembly / Web Developer *in training*
October 2016 - January 2017 | Boston, MA

Front End Application / Tic Tac Toe

Utilized HTML, SCSS, CSS, Bootstrap and JavaScript to create a front end tic tac toe project.

Full Stack Application / Read to Free

Utilized Ruby, Ruby on Rails, Handlebars, Bootstrap, HTML, SCSS, CSS and JavaScript to create a full stack personal library application.

Future Application / TBD

Will be updated upon project completion

Job Experience

Boston EMS / Emergency Medical Technician
January 2014 - October 2016 | Boston, MA

Responded to emergency calls placed via the 9-1-1 system and interacted with the diverse population of Boston citizens in their homes, at work and outdoors, in all weather and sometimes hazardous environments. Assessed and treated patients according to local and state protocols as well as the standard operating procedures of Boston Emergency Medical Services. Administered medication and assisted paramedics with select medical treatments.

New England Aquarium / Aquarist
February 2010 - January 2014 | Boston, MA

Provided animal husbandry for marine and freshwater organisms through food preparation, feeding, cleaning, assisting with and administering medical treatments and recording observations of animal behavior. Maintained aquatic environmental parameters. Interviewed and hired seasonal interns. Supervised and trained volunteers and interns in animal handling, collection and husbandry.

Skills

HTML	CSS	JavaScript
